

Fellow Investors,

A group of investors is being formed with the intention of making a request to the U.S. Attorney's Office for investigation of Wealth Management and its related funds beyond the current scope of the S.E.C. investigation. We believe the success of our request will be optimized by including as many investor names to the appeal as possible. If you are interested in participating in this effort please forward your name, e-mail address and other contact information to wealthmgmt@yahoo.com . No financial cost is anticipated for your participation in this effort at this time. This is an effort by investors only, and does not generate from, or include the Receiver. After an initial list of interested parties is compiled, communication regarding process and progress of this effort will be sent to you via e-mail.
